

4th Edition

We are excited to announce the Return of Motion in Control (MIC IV)- Bigger, Bolder, and more impactful than ever. This year’s two-day seminar offers a unique opportunity to explore the latest in motion and control technologies, with expert-led technical presentations, thought-provoking panel discussions, and an exciting test track event, attendees will witness groundbreaking innovations and gain insights into the future of the industry.

MIC IV focuses on the shift from traditional vehicle dynamics to sensor-driven technologies, addressing the technical, regulatory, and consumer impacts. The event will emphasize the development of ADAS and autonomous vehicles, tailored to the unique challenges of the Indian market.

EVENT OVERVIEW

Autonomous Vehicle Testing

Autonomous Emergency Braking

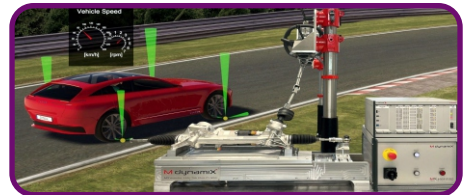

Adaptive Cruise Control

Vehicle Handling

Camera HIL

Steering HIL

CONFERENCE LOCATION

Venue : iCAT,
 Manesar

30th - 31st January 2025

Venue : GARC,
 Chennai

6th - 7th February 2025

CONFERENCE GLIMPSE

Keynote Sessions

Networking Opportunities

Technology Presentation

Exposition

Media Coverage

Test track-live
 Vehicle demo
